Game developer can start soon: Roadmap released

Cologne, October 16, 2015 – On October 30, the Early Access of Game Tycoon 2 will start on Steam for PC. Sunlight Games has released now the roadmap with an overview of the scheduled updates. The roadmap lists many details for the versions, contents and dates.

Small gag: the updates are named after old storage media. "We want to finish the development of this great game with the feedback of the community. That's why we are planning the Early Access so transparent. We will try to keep the schedule even we maybe add some additional wishes of the community. The most exciting update will then for sure the "Disc"-update, because it is one of the biggest update which will add a lot of content and features", said Marco Sowa, Managing Director of Sunlight Games.

Games Tycoon 2 is going to be more extensive and detailed than **Game Tycoon 1**. So all of the technologies and trends from the years 1980 up until 2030 are offered and included. Games can be developed for PCs, handheld devices, smartphones or other platforms. Besides the endless game, there also are 20 missions to accomplish - an extensive tutorial helps you to get started.

Game Tycoon 2 will be released at the 30th of October 2015 on Steam in Early Access for PC. The final game will be released in February 2016 for PC, Mac, Linux, iOS and Android. It can be pre ordered in the online shop by Sunlight Games too at <http://shop.sunlight-games.com>. The first trailer can be found at <http://www.sunlight-games.de>.
