First major update for Game Tycoon 2 will be released today on Steam!

Cologne, November 27, 2015 – Today the first major update for Game Tycoon 2 in the Early Access on Steam will be released. The "Tape-update" will expand the game with complete new research and financial areas. In addition, there will be more features in the corporate office as well as a larger tutorial. With this update to v0.2.0 Steam Cloud for save-games will be supported – much earlier than scheduled!

With the "Tape-update", the content of the game raises to 50%. The team by Sunlight Games like to continue the discussions regarding new ideas and wishes in the forums of Steam or Sunlight Games. There is also the roadmap, with the scheduled updates.

The next major update will be released mid of December. The "Disc-Update" will bring the lawyer, the production and the storage to the game as well as some wishes and suggestions from the community.

Games Tycoon 2 is going to be more extensive and detailed than **Game Tycoon 1**. So all of the technologies and trends from the years 1980 up until 2030 are offered and included. Games can be developed for PCs, handheld devices, smartphones or other platforms. Besides the endless game, there also are 20 missions to accomplish - an extensive tutorial helps you to get started.
