"Construction Playground" will start on December 8th in Early Access!

Cologne, 04.12.2020 – Today Sunlight Games has announced that "Construction Playground" will be released on Steam Early Access on Tuesday, the 8th of December. New Screenshots and an updated version of the trailer will be published at the release.

In the final basic game, players will be able to control a tower crane, tear down walls with two kinds of hammers and to build walls with individual bricks. Future DLC content will expand the construction site with new environments, missions and of course cool construction vehicles and tools, such as a crawler excavator and a crawler crane.
