9 years after release: New update for "Gold Rush! Anniversary" released!

Cologne, 05-30-2024 – More than nine years after the last update, Sunlight Games has released a new update for "Gold Rush! Anniversary". The update fixes small issues and was released on Steam for PC. Soon it will be released for owner of the box version as well as for iOS and Android.

After the update was released for all platforms, the development of another update which contains new features will be started.

Changelog of all fixes in version 1.15:

- Engine updated to a latest version.
- Saving was developed completely new. For using old save games, a converter was developed, which check at the game start if there are old save games. If so, they will be backuped and then converted. If the converted save games are making problems, please start a thread in the forum, then we can convert your old ones (backuped), you then send to us. Until now, converted save-games didn't make any problems in all tests.
- The new save games have endings and we fixed the problem in the directory with the possible added file by Steam, Cloud Save should work again in the future. In a while we will make it available again!
- Bug in parser fixed, when Jerrod gets stuck from going from harbor into direction of the bank.
- Some artworks were better trimmed in a few the scenes.
- Some collisions were optimized in a few scenes.
- Some layer problems were fixed in a few scenes.
- The mouse-cursor is now kept in the game-screen.
- After changing from P&C to parser and back, sometimes the mouse cursor was not in the menu, fixed!

A detailed list can be found in the Steam-forum!

In Gold Rush! Anniversary players slip into the role of Jerrod Wilson and can choose between three routes from New York to California. Whichever route you choose, all routes offer numerous historical settings - from the Great Plains to the vast mountain ranges to the Panamanian Isthmus and Cape Horn at the southern tip of South America. On the way to California there are a variety of puzzles to solve and adventures to survive. Will Jerrod reach the west despite all obstacles?
