**Press Release 03/2024
Cologne, August 19, 2024**

"Construction Playground" gets last update in Early Access soon!

Cologne, 08-19-2024 – Sunlight Games has announced the last update before the final release for "Construction Playground". The update brings some optimizations, bug fixes and will again add more new content. "Construction Playground" has already been released on Steam in Virtual Reality Early Access. The update will raise the game version to v0.7 and will be released on 08-30-2024.

In the final basic game, players will be able to control a tower crane, tear down walls with a hammer and to build walls with individual bricks. Furthermore, formwork walls can be placed and concreted. Future DLC content will expand the construction site with new environments, of course cool construction vehicles and tools, such as a crawler excavator and a crawler crane.

Sunlight Games is looking forward to adding ideas from the community to the game that are both meaningful and feasible.
