**Press Release 04/2024  
Cologne, August 30, 2024**

## **"Construction Playground" gets last update in Early Access!**

**Cologne, 08-30-2024 – Sunlight Games has released the last update for "Construction Playground". The update brings some optimizations and bug fixes. "Construction Playground" has already been released on Steam in Virtual Reality Early Access. The main game will be finally released soon.**

In the final basic game, players will be able to control a tower crane, tear down walls with a hammer and to build walls with individual bricks. Furthermore, formwork walls can be placed and concreted. Future DLC content will expand the construction site with new environments, missions and of course cool construction vehicles and tools, such as a crawler excavator and a crawler crane.

Sunlight Games is looking forward to adding ideas from the community to the game that are both meaningful and feasible.

For more information, please visit the Steam page of Construction Playground:
